SHORT CV

- BSc in Applied Mathematics. Faculty of Applied Mathematics, University of Crete, Greece (1999-2005)
- MSc in Marine Technology & Science. Faculty of Naval Architecture & Marine Engineering, National Technical University of Athens, Greece (2005-2007)

She has been involved in several national and EU multidisciplinary research and operational projects focusing on infrastructure, ocean circulation, biochemical distribution, quality control procedures and hydrological and physico-chemical data processing and analysis. Since February 2018, she is a research associate at the Institute of Marine Biological Resources and Inland Waters, HCMR. She has contributed to 2 articles in peer-reviewed journals, as well as to 3 other publications (conference proceedings, special publications) and has co-authored numerous technical reports.
